FORT RILEY, KANSAS 66442-5000

WELCOME

The staff of Fort Riley's Army Community Service (ACS) welcome you to the home of the First Infantry Division. We, in the military, have all experienced the frustration of lifting roots, packing our much traveled possessions, leaving old friends and moving to a new post. In your Welcome Packet, I have included information of general interest to you in learning about Fort Riley and the surrounding area. Included are listings of post facilities, their location and specific services offered or available to you before, during, and after you get settled into your new home.

Army Community Service is one of many agencies at Fort Riley whose primary mission is to offer assistance to you when needed. You only need to ask for help and every effort will be made to see that you get it. It is the goal of this agency to make Fort Riley a comfortable post in which to work and live.

Army Community Service is located in Building 37, Main Post, lower level. Again, WELCOME to Fort Riley! The staff of Army Community Service will do everything possible to assist you and make your tour at Fort Riley a memorable one,

Sincerely,

Marilyn L. Jacobson

CONCEPT

The Army Community Service was established in July 1965 when General Harold K. Johnson, then Army Chief of Staff, wrote to major commanding officers;

> The major resources we need to insure success are the initiative, cooperation, and spirit of helpful assistance I know exists at every level of command. I realize that establishment of this program Army wide will not be an easy task, but I an convinced it is an important one.

The purpose of Army Community Service is to establish a centrally located responsive and recognizable service to provide information, assistance, and guidance to members of the Army Community in meeting personal and family problems beyond the scope of their own resources. The Army Community Service motto is SELF-HELP, SERVICE, and STABILITY.

Please Feel Welcome!

In these days, when youth is trying to find its way amid all types of unusual pressures, it's good to know that Scouting is offering a program under trained volunteer leadership that will help young people meet the demands they will face as adults.

Scouting offers three distinct areas of program designed to meet the needs of young people from 8 to 20.

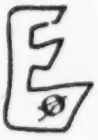
A home-centered program of fun and achievement for all boys 8 (or in the third grade), 9, and 10 years old and their families.

SCOUTING IS:

A vigorous program of character development, citizenship training, and mental and physical fitness for any boy who has completed the fifth grade or ages 11 thru 17.

EXPLORING IS:



A contemporary program for young men and women who have completed the 8th grade, designed to provide opportunities to explore adult like roles.

Many times adults with previous experience in Scouting move into our Coronado Area Council and an extended invitation to join with our volunteer scouter team is always open. The invitation is also extended to adult and parents who may join for the first time.

IN CASE OF FIRE AT HOME

Fire can happen to you! One home fire occurs every 55 seconds in America. That's more than 1,500 home fires each and every day.

If you awaken in a smoke filled room, you should:

1. Roll out of bed to the floor as there is less smoke there. Cover your nose with a cloth if you can. DON'T STAND UP!

2. Crawl to a window. Open it, or smash it if you have to and lean out for life-sustaining air.

3. If you are trapped in the room, close the door against flames and heat and seal the cracks with blankets, rugs, etc. A wooden door will act as a fire barrier for 20 minutes or more.

4. Wait at a window for rescue to reach you if possible. Do not jump from a high place except as a last resort.

5. If you still have time for other escape, feel doors before opening them. If a door feels hot, don't open it. One breath of super-hot air can kill.

IF YOU DISCOVER A FIRE:

1. Get everyone out of the house. Don't stop to search for valuables or clothing.

2. Call the Fire Department.

3. Fight the fire if it is small - but stay close to a door or other excape. Fire is loaded with intense heat and toxic combustion gases, and you may be overcome before flames ever touch you.

IF GREASE CATCHES A FIRE ON THE STOVE:

1. Protect yourself and your clothes.

2. Shut off the stove.

3. Try to smother the flame by placing a pan cover on it.

4. Grab your fire extinguisher and use it. You can also throw handfuls of baking soda on the flame. But do NOT use water or try to carry out a burning pan.

Don's hesitate to call your Fire Department - even to report a small fire that you've already stopped. They can have important advice.

CRIME PREVENTION COALITION

Babysitting's more than you think!

GENERAL SUGGESTIONS:

1. Babysit only for people that you know something about.

2. If someone calls you to babysit and you don't know them, ask them who gave them your name. Then, call those people and ask about the new people BEFORE you accept the job.

3. It's not a good idea to answer ads in the newspaper. Person-to-person references are best.

4. Always give your parents or a friend the name, address, and telephone number of where you'll be babysitting. You should also give them an idea of when you expect to return home.

5. Always try to take a nap before you babysit so that you won't fall asleep on the job.

6. Never invite friends in unless you have permission from your employer. It's not fair to the child you're responsible for or to your employer.

7. Plan to arrive at your employer's at least 10 minutes before they leave; allow 15 minutes if this is a new empl employer.

WHEN YOU ARRIVE AT THE HOUSE:

1. Ask the parents to give you the name, address, and phone number where they can be reached. WRITE IT DOWN!

2. Ask the parents to also give you the name and phone number of a close neighbor(s) that you could call in case of emergency. WRITE IT DOWN! Put it by the phone with the police and fire emergency numbers.

3. Make sure all medicines, knives, and pointed scissors are out of reach.

4. Check the whole house. Lock all doors and windows. Leave some outside lights on, too.

5. Do not open the door to strangers and don't tell anyone who comes to the door that you are alone.

6. If someone calls for the homeowners, ask their name and number. Tell them the people can't come to the telephone now, but that they will return your call.

7. If the caller persists, stay calm and be firm. Son't tell them the parents aren't home, and don't let the caller know you're alone. If they get rude, hang up.

8. If you receive an obscene phone call, hang up immediately! If they continue, CALL THE POLICE! Be sure to tell the parents what happened.

9. Keep the volume of the radio, sterio, or television low so you can hear any unusual noise or the baby crying.

10. If you think someone is breaking into the house, take the children out the opposite door and to a neighbor's home. Call the police immediately!

11. If you smell smoke or detect a fire in the house or garage GET THE CHILDREN AND YOURSELF OUT FIRST. Go to a neighbor's and quickly call the fire department.

12. Call the police if you think you need to. A police officer would rather have a false alarm than have you get hurt. When you call, stay on the line. Do not hang up until the operator tells you to hang up.
